

ECU Genomics Core Pricing

(pricing current as of 5/21/2020)

Sequencing Type	Price	
Sanger Sequencing	\$ 3.75	per sample
Load-Only (user prepared sample)	\$ 2.00	per sample
Fragment Analysis	\$ 2.00	per sample
Agilent Bioanalyzer		
RNA Nano Assay (up to 12 samples)	\$ 40.00	per chip
RNA Pico Assay (up to 11 samples)	\$ 45.00	per chip
DNA High Sensitivity (up to 11 samples)	\$ 70.00	per chip
Qubit		
RNA High Sensitivity	\$ 1.50	per sample
DNA High Sensitivity	\$ 1.50	per sample

Re-runs

Assays may fail for various reasons, and the researcher may ask the Facility to re-run their samples. If it is determined the reaction failed due to poor sample, the researcher will be charged for the re-run. If, however, it is determined the Facility is at fault, there will be no additional charge to the researcher.
